

BLUE CAR WASH

A free flowing dust free powdered compound for use as a manual or high pressure cleaner for cars, trucks, boats, campers, mobile homes, and other similar painted and non-painted objects. For use in hard or soft water at a concentration of 1 lb for each 100 gallons of water at the nozzle. For concentration of slurry tanks use 30 to 50 pounds per 100 gallons of water and adjust valves to regulate accordingly. A slightly higher concentration may be necessary on heavy soil or very hard water. This product is 100% water soluble in warm or hot water. In cold water some of the more complex granules may not completely dissolve but it would still be very effective in normal cleaning requirements. The foam of this product is moderate to high and remains stable, be sure to rinse thoroughly and do not allow detergent to dry on washed vehicles. It is free rinsing and will not leave water spots on washed vehicles.

SPECIFICATIONS

Color	Light Blue
pH	9.5 ± 0.2
Foam	Moderate / Copious / Stable
Appearance	Granule Compound
H ₂ O	100% Warm/Hot Water
