

BLUE MAX

Heavy Duty Cleaner – Degreaser

Blue Max is a non-flammable, water-soluble degreaser that exhibits highly efficient soil removal and degreasing properties in a wide variety of cleaning operations. It rapidly penetrates and dissolves heavy accumulations of grease, dirt, oil, baked on carbon deposits and other tough soils. It is effective for use on concrete floors, machinery, tools, greasy machine parts, flumes, ventilators, stoves, ovens, driveways and other hard surfaces. Active ingredients include a balanced blend of heavy-duty detergents, sequestrants, wetting agents, emulsifiers, and strong water-soluble solvents.

Blue Max rinses freely, leaving no residual film, eliminating the need for repeated or excessive water rinsing. It features a variable dilution rate for many hard to handle cleaning and degreasing problems. Dilution will vary with the type of soil and its severity, as well as the type of cleaning application (i.e., automatic scrubber, pressure systems, steam cleaners, spray or soak, or by hand). The rates below can be used as a guide.

Light Soil.....	1-2 oz./gal.
Average Soil.....	4-8 oz./gal.
Heavy Soil.....	10-12 oz./gal.
Severe Soil.....	16-32 oz./gal.

NOTE: When using on food contact surfaces, always follow cleaning with a thorough, clean water rinse.

SPECIFICATIONS

Ph.....	12.8 ± .5
Color.....	Blue
Odor.....	Characteristic / Non-Offensive
Foam.....	Moderate
Flash Point.....	Non-Flammable
Freeze-Thaw.....	Stable
