

Coco Castile 40%

Concentrated Handsoap

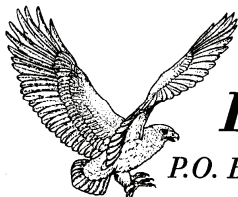

Made from the finest coconut oils and domestic castle oils, this liquid hand soap contains 40% solids, including natural glycerin. It cleans with a fragrant, copious lather, leaving the skin feeling soft and supple.

When diluted with up to three parts of water, this 40% concentrate will provide enough cleaning power for up to 10,000 pairs of hands. Remember excessive dilution is poor economy, particularly in hard water areas.

A popular and versatile hand soap for use in schools, office buildings, industry and municipalities.

Specifications:
