

DELIMER

A highly active, phosphoric acid based cleaner designed to eliminate unsightly mineral deposits, rust, grease, food film, soap scum and other acid susceptible soils and stains. Excellent for use on steam tables, dishwashers, washing machines, boilers, food service equipment, ceramic tile, porcelain and vitreous china surfaces.

At various dilution rates this product performs as an all purpose cleaner to fulfil a variety of sanitation needs. As little as 1 to 4 ounces per gallon of water is effective at removing light to moderate accumulations of soap scum, mineral deposits and associated soils. A dilution rate of 8 to 16 ounces per gallon of water is sufficient for handling heavy accumulations of soil. This liquid has no toxic fumes and rinses easily, leaving no films, residues or after taste.

SPECIFICATIONS

COLOR.....	Blue
FRAGRANCE	Cherry
pH	1.0 ± .5
CHEMICAL BASE	Acid / Solvent complex
% ACID	30%
WT PER GAL	9.2 lb.
