

Extra Heavy Duty Degreaser

A highly concentrated industrial strength degreaser designed for extra heavy cleaning and degreasing jobs. By combining water-based solvents, surfactants and wetting agent in extra measure, we have created a degreaser with exceptional penetration qualities on petroleum soils. The superior emulsification qualities of this product holds grease and oil in suspension longer to allow them to be rinsed away more completely and prevent re-deposition of the soil on the other areas being cleaned. While this product is strong, it is not harsh. It does not contain any caustic soda or other harsh chemicals that would damage soft metal such as tin, zinc and aluminium. Safe for use on all metals. This product will perform well in automatic equipment, pressure wash systems and manual cleaning. Dilutions will vary depending on severity of the soil and the cleaning methods used. A little experimentation is usually the best way to establish use dilution for your own cleaning requirements. Dilutions may vary with cleaning method. A few examples of dilutions may help you to determine your cleaner strength.

Light Soil	1 – 2 ounces per gallon
Medium Soil	4 – 6 ounces per gallon
Heavy Soil	8 – 12 ounces per gallon
Severe Soil	16 – 24 ounces per gallon

SPECIFICATIONS

Color	Blue
Fragrance	Non-Offensive
pH (1%)	12.5 ± 0.5
Foam	Low – Moderate
Freeze-Thaw	Stable
Wt./Gal.	8.56 lb/gal
Flash Point	Non-Flammable
