

# HEAVY DUTY BOWL CLEANER

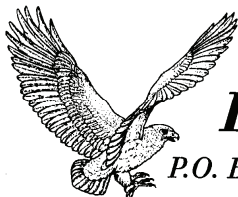

This is a highly concentrated, hydrochloric acid bowl cleaner that quickly and effectively removes tough build ups of rust, stains, lime, scale, hard water deposits and uric acid salts. This blend is designed for use on vitreous china surfaces as in commodes and urinals. Avoid contact with plated fixtures.

To use, first empty the bowl by expelling water from the trap. Apply bowl cleaner full strength onto the surface or onto a bowl mop held over the bowl. Rub surface and under the rim to remove any encrustation. Allow to stand several minutes before flushing to rinse.

Note: This product is highly concentrated and should be used by experienced personnel with the appropriate safety equipment.

## SPECIFICATIONS

pH .....	0.02
Color .....	Green
Odor .....	Mint
Clarity .....	Clear
Total Actives .....	26%
