

# **HYDRO***Lite*

A special “light” formulation of ingredients that incorporate the quick action of hydrochloric acid, detergents and wetting agents to promote cleaning. The “light” formulation reduces the hazards associated with more concentrated acid cleaners.

Use to dissolve mineral deposits, uric acid salts, rust stains and body oils. Simply squirt directly from the bottle or pour a small amount onto a bowl mop and then apply to surface. Allow it to remain on the surface for a few moments and then rinse completely.

As with any product containing hydrochloric acid, caution should be exercised during use. Use on Vitreous porcelain surfaces. Avoid contact with bright metals as it can cause discoloration or blistering.

## **WARNING:**

Avoid contact with skin or eyes. Can cause severe burns.

## **SPECIFICATIONS**

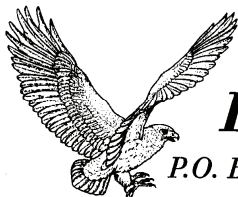

Color ..... Light Blue

Clarity ..... Clear

Fragrance ..... Vanilla

pH ..... Acid

% HCL ..... 10%
