

ICE MELT

Quick Acting, Safe and Clean

An ice melting compound in time-released pellets. This product has many advantages over other forms of de-icers.

Ice Melt will not:

- * Rust thresholds
- * Pit or Stain Concrete
- * Kill Vegetation
- * Grind away floor finish
- * Leave a powdery residue

Ice Melt is effective in temperatures below 0°F while many others cease to be effective below 20°F. It is also 40% faster than it's closest competitor.

When using Ice Melt remember—a little does a big job. One pellet will melt 2 square inches of ice. Over use does not offer any advantages.

Ice Melt is available in 50 and 100 pound fiber drums with a metal top and bottom.
