

# IMPRESS

## Floor Finish

This technologically advanced floor finish was formulated to answer the demand for greener chemistry in the floor care industry. This floor finish offers equal or better performance when compared with current traditions floor polishes. Exceptional clarity, depth of gloss, slip resistance and superior durability without yellowing are just some of the benefits this environmentally preferred product offers. Impress is also formulated for faster recoat times. In many instances it can be recoated up to 40% faster than conventional systems which reduces labor costs and allows for more polish to be applied, resulting in better floor protection. It offers immediate wet gloss look, excellent water and detergent resistance, and superior durability in high traffic areas.

Use to beautify and protect the following surfaces:

Vinyl composition, vinyl asphalt, linoleum, rubber, marble, terrazzo, brick, sealed wood, concrete and other surfaces not affected by water-based polishes.

### DIRECTIONS FOR USE: (Initial Application)

1. Remove all old floor finish using manufacturer's recommended stripper.
2. Remove stripping solution and follow with at least 2 clear water rinses and allow to dry.
3. Apply 3 to 5 medium coats of Impress in uniform manner. Allow floor to dry thoroughly between coats and prior to buffing or burnishing.

### DIRECTIONS FOR USE: (Daily Maintenance)

1. Sweep or dust mop daily (with untreated dust mop) to reduce wear and tear on surface.
2. Damp mop as necessary using manufacture's recommended cleaner.
3. Repair traffic worn areas by patch coating, spray buffing or burnishing.

## HAWK SOLUTIONS

**P.O. Box 29925 / Dallas, TX 75229**
