

MULTI-QUAT

**Disinfects - Cleans – Deodorizes - *Virucidal Acid Disinfectant Bowl Cleaner
For Hospital, Institutional, Industrial and Commercial Use**

Multi-Quat is an acid disinfectant bathroom cleaner, especially formulated to kill many germs commonly found in hospital and industrial settings. This product contains a high level of acid, together with an acid compatible detergent system, which facilitates the easy removal of resistant stains and permits disinfectant action. Multi-Quat penetrates to break up and dissolve the most difficult stains, repels dirt and stops odors at the source by killing odor causing bacteria.

Multi-Quat may be used on washable, non-porous surfaces such as:
Shower stalls, shower doors and curtains, bathtubs, glazed tiles, toilets, urinals, porcelain tile, sinks and countertops.

Multi-Quat is bactericidal according to the AOAC Use Dilution Test methods against the following organisms: Escherichia coli, Enterococcus faecalis (VRE), Pseudomonas aeruginosa, Salmonella choleraesuis, Salmonella typhi, Staphylococcus aureus-MRSA, Serratia marcescens, Enterobacteriaceae (extended beta lactamase resistance), Shigella dysenteriae, Staphylococcus aureus, Staphylococcus aureus – VISA.

Multi-Quat was evaluated in the presence of 5% serum with a 10 minute contact time and found to be effective against the following viruses: Hepatitis A Virus (HAV), Herpes simplex virus type 1, Herpes simplex virus type 2, HIV-1 (Aids), Influenza A virus, Rotavirus.

Disinfection /*Virucidal Directions: Apply 1 to 2 ounces to hard, inanimate, non-porous surfaces thoroughly wetting surfaces with a cloth, mop, sponge or sprayer. Allow surfaces to remain wet for 10 minutes. Spray 6 – 8 inches from surface. Rub with brush, sponge or cloth. Do not breathe spray.

To Remove Stubborn Stains (Urine stains / Lime or Scale deposits): Apply 1 to 2 ounces of this product directly on stain. Let it remain at least 15 minutes. Scrub, then flush or rinse. Repeat if necessary.

Multi-Quat **kills HIV-1 on pre-cleaned environmental surfaces/objects previously soiled with blood/body fluids** in health care settings or other settings in which there is an expected likelihood of soiling of inanimate toilet bowls/urinals with blood or body fluids and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of human immunodeficiency virus Type 1 (HIV-1) (associated with AIDS).

Physical Performance Properties of Multi-Quat

PH.....	□ 2
% Acid.....	12%
Density.....	8.7 lbs.
Freeze/Thaw Stability.....	Stable
Color.....	Red
Scent.....	Cherry
