

PHOSPHO - LITE

Mild Acid Cleaner

This mild, yet very effective phosphoric acid cleaner aids in keeping restrooms, locker rooms, bathing areas, kitchens and other locations sparkling clean. This pink liquid features a pleasant fragrance and cleans without any objectionable fumes or other hazards associated with "hotter" or more concentrated acids.

Phosphoric acid formulated with concentrated surfactants, wetting agents and detergents combine to make a product that removes body oils, soap scum, scale, lime deposits and other common soil. It can be used with confidence on chrome, stainless steel, aluminum, ceramic tile, porcelain and fiberglass surfaces.

This product is ready to use. No messy mixing is required. To use simply apply cleaner using mop, sponge, wet spray or squirt directly from bottle. Allow it to remain on surface a few moments allowing for penetration of soil. Follow with a thorough clean water rinse. On severe soils a brush or hand pad will help to loosen and remove any encrustation.
