

PINK LOTION HAND SOAP

Proteinized Lotion Hand & Body Soap

A lotion soap made from the finest coconut castile oils available. It is for those who require the ultimate in mildness, luxurious lather, and cosmetic feel and scent. It combines mild, yet effective cleansing agents plus skin conditioning proteins. The exclusive emollient blend leaves hands smelling fresh and clean. It is pH balanced and will not irritate even the most sensitive skin. Though intended primarily for washing hands, this product may be used as a shower soap as well.

Recommended for use in doctor's offices, country clubs, schools, commissaries, restaurants, airports, day cares, and other public restrooms.

This product is ready for use without further dilution. It gives consistently good performance without the exasperating variations from thin to "syrupy" thick, as happens to concentrated soaps that are often diluted differently, by different people, at different times!

For washrooms where only the finest will do, this mild skin cleanser will receive enthusiastic approval!

SPECIFICATIONS
